SECTION IV. Developmental Accomplishments  
A. For Home and Community Based Programs\*

State ID: VT Fiscal Year: 2006

Identification of Three Top Accomplishments
<p>1. On October 1, 2005 the Vermont Department of Disabilities, Aging and Independent Living implemented the new 1115 Long Term Care Medicaid Waiver Program: Choices for Care. This research and demonstration waiver allows the State to expand the Medicaid Long Term Care entitlement to individuals who are seeking home and community based services. The program also provides services to an expansion group that does not need to be clinically or financially eligible for LTC Medicaid with the goal that by providing preventive services, we can delay or prevent the need for more costly services. After our first year of implementation, we are already seeing an increasing number of individuals choose to receive services in their own homes or in enhanced residential care settings,</p>
<p><b>Type of Development: 2. Resource development</b></p>
<p>2. Also in FFY 2006, Vermont completed the development phase and began offering cash and counseling services, known as Flexible Choices, as a service option within the Choices for Care Program. The development of this service option was made possible by a grant from the Robert Wood Johnson Foundation. In addition to the cash and counseling service option, an increasing number of individuals took advantage of the option to provide consumer-directed or surrogate-directed care in the Choices for Care Program. Combined, these consumer-directed service options are extremely popular and now exceed the care provided by agencies</p>
<p><b>Type of Development: 2. Resource development</b></p>
<p>3. During FFY 2006, the Vermont Department of Disabilities, Aging and Independent Living began planning for the development and implementation of Vermont's first Aging and Disability Resource Centers. This work, made possible from a grant from the Administration on Aging and the Centers for Medicare and Medicaid Services will establish highly visible and trusted places in the community where people looking for information about long term care and independent living can go to receive comprehensive and objective Information, Referral and Assistance, options counseling, eligibility screening and streamlined access to the services and resources they need to stay as independent as possible. The target groups to be served through Vermont's project include: older adults, individuals with</p>

SECTION IV. Developmental Accomplishments  
B. For A System of Elder Rights

State ID: VT Fiscal Year: 2006

**Identification of Three Top Accomplishments**

1. The Department, working collaboratively with Vermont's five AAAs (also the local SHIPs), the State Medicaid Agency, consumer advocacy organizations and other State/Federal agencies played a key role in public education efforts aimed at providing Medicare beneficiaries with information related to the Medicare Part D pharmacy benefit and enrollment options. When the implementation began in January, 2006, Vermont AAAs went into gear full-time with providing assistance to Medicare beneficiaries to troubleshoot some of the coverage/enrollment challenges that arose. While problems were being resolved at the State and National level, the State legislature took swift action to make sure that Medicare beneficiaries had

**Type of Development: 1. Public education/awareness**

2. Planning efforts also continued to open the first Program for All-Inclusive Care for the Elderly (PACE) in Vermont and to develop other models of integrated financing and delivery of primary, acute and long-term care. The first PACE site is scheduled to open in FFY 07 in Chittenden County, with a second site already under development in Rutland County. Through a CMS Real Choices Systems Transformation grant (Health and Long Term Care Integration Grant) the Department conducted a broad public input process into efforts to develop an integrated delivery system for older adults and adults with disabilities. Work will continue in FFY 2007 at which point we hope to identify potential providers of this service
